Update for ECGrid User of the New ECGrid Portal

We hope by now you've had a chance to check out the new look and feel of your new portal interface! If you haven't yet had an opportunity or don't know where to start, please click the link below for tutorials and documentation on your first steps and beyond.

http://tinyurl.com/ViewChangeLogForAllUpdates

We're also excited to share with you even more new features we have added in the past 30 days:

Change Log: Located at the bottom of every page, you can track the newest updates and changes made to the user interface:

Additionally, we have added/updated:

Improved Dashboard Load time
New Document Viewing Capabilities - Base64 to Hex
Quick Trading Partner look-up field

Coming up in November:

Walmart DIY Tab: We have started working on functionality for you to set up WalMart without NetOps intervention! The full functionality will be available in the coming weeks.

Thanks for everyone's feedback on the portal as we continually work to make it better. We will continue to roll out new features and capabilities and provide updates when these are available on ECGrid. As always, you can review the latest support documentation, feature overview and manage support issues at http://support.ecgrid.com.
